PROJECTS

The Number Guessing Game

A game where one player provides a number, two players have to guess that number correctly to win (Backend: JavaScript, Frontend: HTML, CSS)

To Do List

Developed a web-based to-do list application utilizing HTML, CSS, and JavaScript. This app empowers users to prioritize tasks and maintain focus. Tasks are easily added and automatically deleted upon completion, promoting a clean and achievement-oriented workflow. This project demonstrates proficiency in front-end development languages and my ability to create user-friendly interfaces.

Money Transaction Application

Developed a functional online transaction app (HTML, CSS, JS) enabling users to manage finances. Features include account funding, cash out, money transfers, and more. Demonstrates proficiency in front-end development and building user-centric web applications.

Achievements:

- Awarded 1st place in a class coding competition involving [24] participants, demonstrating strong problem-solving and coding skills in [JavaScript].

CORE SKILLS
